\$2000.00
\$2500.00

Mini Implants to stabilize lower denture
\$1500.00
\$3500.00
\$5000.00

*Fees vary considerably in dentistry, especially in regard to dental implants. The above chart does is not based on any scientific collection of data, merely on my impressions of the fee schedules out there. Please do not take the numbers as gossiple, but rather, use them as a guide in negotiating your dental treatment. Also, please be aware that someone who charges a higher fee is not necessarily delivering a superior product over someone who charges less.
