Phone Number : 561-447-8282

Fax Number: 561-447-8283

Intra-Lock's product selection, intelligently engineered by dental professionals, features a full range of dental implants, and restorative components. Implant systems include the Intralock Internal Connection, External Hex Line and a miniature dental implant, Mini-Drive Lock. All Intra-Lock Dental Implants are enhanced by Drive-Lock technology that enables the implant to be removed from its sterile package, carried to the implant site and threaded into place in one fluid motion. A torque wrench of exquisite accuracy and rugged strength, Torque-Lock, compliments the system.
