

Arrange for Treatment with Dr. Davidoff

Last Updated Sunday, 21 December 2008

This area will let you know how you can arrange to have your dental implant treatment in Boynton, Florida.

This section is for patients who are residents of Florida and patients from outside of this area who would like to travel to Boynton Beach, Florida to have their dental implant work performed by Dr. Davidoff, one of the world's top dental implant Prosthodontists.

Patients from all over the world travel to Dr. Davidoff's Dental Offices in Boynton Beach in order to have Dr. Davidoff place and/or restore their dental implants. This procedure works out best if the patient will spend several months in the area, but occasionally, we have patients who fly in for various aspects of their dental work and then return at later times for completion. If you would like to consider treatment by Dr. Davidoff, you might want to check out what we did for one of our "long distance" patients and then read the guidelines below:

Contact the office and arrange to send your dental records for review prior to coming to the area. This will give Dr. Davidoff a chance to familiarize himself with your dental situation and to determine what might be done to help you. Flora Gottlieb will be glad to assist you.

Patients receiving implants must be available for up to two weeks after implant placement so that Dr. Davidoff can check on the healing.

Patients receiving extensive grafting procedures may have to be monitored by another dentist if they leave the area during the healing phase of treatment.

There is a second stage to the implant surgery which is done approximately 3 to 4 months after the implants are placed. You can make arrangements to have this phase done elsewhere, but it is advisable to return to Boca Raton.

Prosthetic reconstruction will usually take between two and four months to complete once the implants are placed. Time restrictions may prohibit this phase from being performed in Florida and might necessarily be carried out elsewhere.

If you have any specific questions, Email Dr. Davidoff for a direct reply.

What differentiates Dr. Davidoff's Prosthodontic practice from others...

Because Dr. Davidoff is one of the world leaders in dental implantology, he is considered by some to be a "Super Specialist". Dr. Davidoff has been a Board Certified Prosthodontist for over twenty years and as such, is an expert provider of Crowns, Bridges and Dentures. He is an expert in Dental Reconstruction and especially Cosmetic Dentistry. While Dr. Davidoff has always restored dental implants, for the past 15 years, he has been placing dental implants for his own patients and for patients of over 50 dentists right here in Florida. He has taught dentists from all over the world the techniques for placing and restoring dental implants. Dr. Davidoff's full CV

S. Robert Davidoff, DMD, FACP
