

## 3I - Implant Innovations

Last Updated Thursday, 21 September 2006

### Description

3I makes several kinds of implants, but their main product is an external hex implant which includes both cylinders and screws. They are extremely reputable and distribute their product worldwide. They tout their microsurface extensively and they are just introducing some new implant designs.

### Contact Information

4555  
Riverside Drive Palm Beach Gardens, Florida 33410

800-342-5454 Fax: 561-776-6700

### Web Site

### Advantages

Several different options are available. The company makes clones of several implant systems.

### Disadvantages

Their basic external hex implant is more expensive than many other companies.

### Recommendations

An excellent company to deal with.
